TABLE OF CONTENTS

NUMBER 1, October 1964

Jacobson, B. S., Salmon, R. J. and Lansky, L. L., Antimitotic effects of chloramphenicol and other inhibitory agents in *Chlamydomonas* 1
Watkins, M. J., Evidence for a lampbrush type structure in grasshopper spermatocyte chromosomes 14
Steinberger, A., Steinberger, E. and Perloff, W. H., Mammalian testes in organ culture 19
Barnard, E. A. and Ostrowski, K., Autoradiographic methods in enzyme cytochemistry. II. Studies on some properties of acetylcholinesterase in its sites at the motor end-plate 28
Ostrowski, K., Barnard, E. A., Darzynkiewicz, Z. and Rymaszewska, D., Autoradiographic methods in enzyme cytochemistry. III. Measurements on esterase in the cells of mouse kidney 43
Hinegardner, R. T., Rao, B. and Feldman, D. E., The DNA synthetic period during early development of the sea urchin egg 53
Whitfield, F. E., The use of proteolytic and other enzymes in the separation of slime mould grex 62
Antoine, A., La résistance de la lévure aux ions cuivriques. I. *Saccharomyces ellipsoideus* 73
Weiss, L. and Lachmann, P. J., The origin of an antigenic zone surrounding HeLa cells cultured on glass 86
Kishimoto, S. and Lieberman, I., Synthesis of RNA and protein required for the mitosis of mammalian cells 92
Curnutt, S. G. and Schmidt, R. R., Possible mechanisms controlling the intracellular level of inorganic polyphosphate during synchronous growth of *Chlorella pyrenoidosa*. I. Endogenous respiration 102
Post, J. and Hoffman, J., Changes in the replication times and patterns of the liver cell during the life of the rat 111
Sachsenmaier, W. and Rusch, H. P., The effect of 5-fluoro-2′deoxyuridine on synchronous mitosis in *Physarum polycephalum* 124
Conner, R. L. and Ungar, F., The accumulation of cholesterol by *Tetrahymena pyriformis* 134
Scott, D. and Evans, H. J., Influence of the nucleolus on DNA synthesis and mitosis in *Vicia faba* 145
Solari, A. J., The morphology and ultrastructure of sex vesicle in the mouse . 160
Rossi, G. L. and Baic, D., Studies of the site of action of insulin in the penetration of muscle fibers by ^{14}C-D-xylose by means of a general autoradiographic method for localization of diffusible substances 169
Smith, T. E., Jr. and Berndt, W. O., The establishment of beating myocardial cells in long-term culture in fluid medium 179
Bullough, W. S., Hewett, C. L. and Laurence, E. B., The epidermal chalone: a preliminary attempt at isolation 192

PRELIMINARY NOTES

Frei, Y. F. and Perk, K., The osmotic fragility of leucocytes 201
Buetow, D. E. and Buchanan, P. J., Isolation on mitochondria from *Euglena gracilis* 204
Bradfute, O. E., Chapman-Andresen, C. and Jensen, W. A., Concerning morphological evidence for pinocytosis in higher plants 207
Scarano, E., De Petrocellis, B. and Augusti-Tocco, G., Deoxycytidylate aminohydrolase content in disaggregated cells from sea urchin embryos 211

NUMBER 2, November 1964

Azzone, G. F. and Dobrilla, G., Relationship between ATPase activity and optical density during contraction and relaxation of myofibrils 215
Dounce, A. L. and Hilgartner, C. A., A study of DNA nucleoprotein gels and the residual protein of isolated cell nuclei: Relationship to chromosomal structure 228
Stenram, U., Radioautographic RNA and protein labeling and the nucleolar volume in rats following administration of moderate doses of actinomycin D 242
Dirksen, E. R., The isolation and characterization of asters from artificially activated sea urchin eggs 256
Srb, V., Effect of storage of X-ray irradiated onions *Allium cepa* L. on changes in cell permeability 270
Tao, T.-W., Aggregation of dissociated human embryonic cells: interaction of trophoblast with autologous liver and lung 275
Branton, D. and Ruch, F., The localization of deoxyribonucleic acid and ultraviolet absorptive granules in *Vicia faba* root tips 285
Drew, R. M., Painter, R. B. and Feinendegen, L. E., Oxygen inhibition of nucleic acid synthesis in HeLa S_3 cells 297
Franks, D., Daniel, M. R., Gurner, B. W. and Coombs, R. R. A., Variation in the Forssman antigen on cells in culture 310
Shea, S. M., Kinetics of hepatocyte proliferation in the early stages of liver regeneration 325
Whitfield, J. F., Brohee, H. and Youdale, T., Prevention of nuclear changes in irradiated rat thymocytes by nicotinamide 335
Whitfield, J. F., Brohee, H. and Youdale, T., The effects of X-radiation on the chromatin structure and histone components of rat thymocyte nuclei 341
Ishihara, K., Release of acid polysaccharides following fertilization of sea urchin eggs. A chemical study of changes in the cell surface 354
Michel, J. F., Sicard, A. M. et Ephrussi-Taylor, H., Comparaison de deux méthodes d'étude des liaisons faibles dans la transformation du pneumocoque 368
Pogo, A. O. and Arce, A., Synchronization of cell division in *Euglena gracilis* by heat shock 390
Cohen, L. W., Diurnal intracellular differentiation in *Paramecium bursaria* . 398
Öberg, K. E., The inhibition of the respiration of brain mitochondria of rotenone-poisoned fish 407

PRELIMINARY NOTES

KIM, J. H., EIDINOFF, M. L., DELIHAS, N. and LAUGHLIN, J. S., The effect of 5-bromodeoxyuridine on the recovery phenomenon in sub-lethally irradiated cells 411
GAILLARD, J. L. J. and SCHABERG, A., A new spreading procedure for human chromosomes 415
WHITFIELD, J. F., BROHEE, H. and YOUDALE, T., Changes in nuclear histone of irradiated rat thymocytes 417
SCHREIBER, R. W., NUGENT, N. A. and CHAPMAN, C. J., An improved technique for the culture of *Acetabularia* 421
MOORE, G. E., *In vitro* cultures of a pigmented hamster melanoma cell line . . 422
ANDERSON, E. C. and PETERSEN, D. F., Synchronized mammalian cells: an experimental test of a model for synchrony decay 423
SPIEGEL, E. and SPIEGEL, M., Regulation of mammalian tryptophan pyrrolase activity during development 427
FRASER, R. C., The similarity of hemoglobins in two cell populations in the chick embryo 429
BARTON, R., Electron microscope studies on the uptake of ferritin by plant roots 432
MESROBEANU, I., BONA, C. and MESROBEANU, L., Pinocytosis by leucocytes of "O" endotoxins 434

NUMBER 3, DECEMBER 1964

EVANS, V. J., BRYANT, J. C., KERR, H. A. and SCHILLING, E. L., Chemically defined media for cultivation of long-term cell strains from four mammalian species 439
RASCH, E. M., DNA synthesis in plant tumor cells 475
SARKAR, N. H., Nomogramic method for the estimation of mass-thickness of biological samples 487
HALL, W. T. and WITKUS, E. R., Some effects on the ultrastructure of the root meristem of *Allium cepa* by 6-aza uracil 494
TORELLI, U., GROSSI, G., ARTUSI, T., EMILIA, G., ATTIYA, I. R. and MAURI, C., RNA turnover rates in normal peripheral mononuclear leukocytes . . . 502
CAMERON, I. L. and STONE, G. E., Relation between the amount of DNA per cell and the duration of DNA synthesis in three strains of *Tetrahymena pyriformis* 510
RITOSSA, F. M., Behavior of RNA and DNA synthesis at the puff level in salivary gland chromosomes of *Drosophila* 515
LEACH, F. R., BEST, N. H., DAVIS, E. M., SANDERS, D. C. and GIMLIN, D. M., Effect of phenethyl alcohol on cell culture growth. I. Characterization of the effect 524
MACKENZIE, C. G., MACKENZIE, J. B. and REISS, O. K., Regulation of cell lipid metabolism and accumulation. III. The lipid content of mammalian cells and the response to the lipogenic activity of rabbit serum 533
CLARK, M. E., Growth and morphology of adult mouse fibroblasts under anaerobic conditions and at limiting oxygen tensions 548

Jacobson, K. B. and Prescott, D. M., The nucleotide pools for thymidine and cytidine in *Tetrahymena pyriformis* 561
Meerson, F. Z., Zaletayeva, T. A., Lagutchev, S. S. and Pshennikova, M. G., Structure and mass of mitochondria in the process of compensatory hyperfunction and hypertrophy of the heart 568
Fletcher, J. R., Light and electron microscopic studies of the effect of reserpine on the adrenal medulla of the guinea pig 579
Cunning, M. C. and Hughes, P. E., Concerning the distribution of mitoses in regenerating rat liver 592
Doljanski, F. and Schulman, N., Electro-kinetic properties of cells in growth processes. II. The size distribution and electrophoretic mobilities of the maturing rat red blood cell 605
Rosan, R. C., Nahmias, A. J., Kibrick, S. and Kerrigan, J. A., Studies in glycoprotein production: infection of primary cultures of human amnion with *Herpes simplex* virus 611
Hirumi, H. and Maramorosch, K., The *in vitro* cultivation of embryonic leafhopper tissues 625
Lindahl, P. E. and Drevius, L.-O., Observations on bull spermatozoa in a hypotonic medium related to sperm mobility mechanisms 632
Engelberg, J., The decay of synchronization of cell division 647

PRELIMINARY NOTES

Nørby, S., Electrophoretic non-identity of human salivary and pancreatic amylases 663
Whitson, G. L. and Padilla, G. M., The effects of actinomycin D on stomatogenesis and cell division in temperature-synchronized *Tetrahymena pyriformis* 667
Lazarus, L. H., Levy, M. R. and Scherbaum, O. H., Inhibition of synchronized cell division in *Tetrahymena* by actinomycin D 672
Whitfield, J. F. and Brohee, H., Factors influencing nuclear damage in rat thymocytes irradiated with 30 Kr of X-rays 676
Bednar, T. W. and Juniper, B. E., Microfibrillar structure in the fungal portions of the lichen *Xanthoria parietina* (L.) Th. Fr. 680
Monesi, V., Autoradiographic evidence of a nuclear histone synthesis during mouse spermiogenesis in the absence of detectable quantities of nuclear ribonucleic acid 683
Heckmann, K. and Siegel, R. W., Evidence for the induction of mating-type substances by cell to cell contacts 688
Levak-Švajger, B. and Moscona, A. A., Differentiation in grafts of aggregates of embryonic chick and mouse cells 692
Fredga, K., Heterochromatic regions in mitotic and meiotic chromosomes of Bennett's wallaby (*Protemnodon rufogrisea*, Desmarest) 696
Kilkson, R., A theory of evolutionary construction of viruses 700
